## Shuhaib Cemerlang CGPA 4.00 & meraih pengiktirafan di University Of Michigan (eWarta Mara-1 July 2020)

Shuhaib bersama ayah dan ibu meraikan hari graduasi

Oleh: Akmal Azlan

Kuala Lumpur, 1 Julai 2020 – Pelajar tajaan MARA, Shuhaib Nawawi meraih kecemerlangan dengan keputusan CGPA 4.00 dan dianugerahkan *Richard F. Dan Eleanor A Towner Prize for Distinguished Academic Achievement'* daripada University of Michigan College of Engineering bagi tahun 2019-2020. Menurut Shuhaib Nawawi, 24, penganugerahan tersebut diberikan khas kepada pelajar siswazah yang cemerlang dalam penglibatan penyelidikan, kepimpinan dan akademik.

"Saya bersyukur kepada Allah kerana berjaya menamatkan pengajian Master di Universiti Michigan. Kejayaan yang saya perolehi ini adalah atas dasar sokongan mak dan ayah saya, ahli keluarga, tenaga pengajar dan pihak MARA selaku organisasi yang menawarkan tajaan pelajaran.

Anak kelahiran Kelantan ini merupakan pelajar tajaan MARA bermula September 2019 hingga Ogos 2020 bagi menjalani kursus Master of Engineering (Energy Systems Engineering).

Sebelum melanjutkan pengajian ijazah sarjana dalam bidang tersebut, beliau menyambung pengajian di universiti yang sama dalam Sarjana Muda Kejuruteraan Mekanikal.

"Sehabis baik saya menamatkan ijazah Sarjana Muda pada tahun 2019, saya telah mengikuti kursus Energy Systems Engineering (ESE) melalui Integrative Systems & Design di universiti ini

JOURNEY OF SELF DISCOVERY (The Star-13 August 2020)

**In this second of a four-part Young Leaders Series, Yayasan Khazanah scholars share how they learn where their strength lies**

BEING selected as a Yayasan Khazanah (YK) scholar has given Ang Kian Guan a chance to pursue his education and realise his dream of studying at University of California, US, majoring in electrical engineering and computer science.

Ang Kian Guan

With a reputation for stringent assessment and interview stages, YK scholarship is among the most prestigious in the country.

For the 20-year-old Kedahan who is the youngest among three siblings, it was an apprehensive yet rewarding experience in his journey to becoming a YK scholar.

“If it weren’t for YK, I wouldn’t have the financial means or opportunity to study at one of the global leading universities.

“I prepared myself two months ahead. Every assessment and online test feels like a huge stake for me as I wanted to excel in each one while keeping true to my own self for the personality test.

“As I went along, I learned a lot about myself, saw myself grow and enjoyed the beauty of the process even before being a YK scholar, ” said Ang.

Kuala Lumpur-based Abbernaa Dhevi Kukananthan shared Ang’s gratitude at being selected for the YK scholarship.

“My dream undergraduate degree course was politics and international relations. YK was the only scholarship that supported what I wanted with a degree that encompasses deep passions of mine.

Abbernaa Dhevi Kukananthan

“The constant support from YK has been such a calming factor that has given me a new sense of courage to push on in the pursuit of my dreams, ” said the 21-year-old who will be studying human, social and political sciences at the University of Cambridge, UK.

Although the application process was a tough one, she found it rewarding as it enabled her to realise her different strengths and weaknesses.

“There was no way you could hide your weaknesses, so you’re here to learn how to show the best side of yourself with these weaknesses. The whole process was challenging yet a holistic and comprehensive one, ” she said.

Abbernaa Dhevi believes that education is the right of every child and she hopes to share the privilege and blessings she has received by becoming part of the movement once she finishes her studies.

**For Muhammad Hanif Adzmir, being a part of the Yayasan Khazanah family has made an impact on his life since he started at Kolej Yayasan UEM 18 months ago.“YK’s robust network and career preparation initiatives are what initially attracted me to its scholarship programme, with its goal to produce future leaders evident through its workshops and community service programmes which encourage character building and leadership development.**

Muhammad Hanif Adzmir

**“I have always been inspired to make a change for my country, especially for my home state Sabah. I believe that with YK’s resource and our alignment in vision, they will help me do exactly that.”**

**He pointed out that aside from financial aid, there is additional support provided by YK, most notably in establishing a close relationship between scholars and the YK management team. Scholars are assigned to a “manager” who is just a text or call away when support is needed.**

**Moreover, he said that interacting with like-minded peers in a facilitative community is inspirational, as it enables students to encourage each other's endeavours.**

*3*

**"All in all, always remember that grit and hard work is the key to success, " said the soon-to-be-19-year-old, who will be starting his engineering and applied sciences degree at Columbia University, US.**

Fellow YK scholar Fatima Zahra Ahmad Ariff from Kuala Lumpur, who is also turning 19 soon, will be furthering her studies in computer science at University Malaya.

"I came across YK during a talk when I was in Form Three and I was determined to work towards it knowing that it could not only help me financially but also nurture me as a potential leader.
"I chose YK because I am confident that they can aid me with developing soft skills and other intrinsic values that one has to have in the working field, " said the elder of two sisters.

On challenges as a YK scholar, she said that one is expected to perform, but to her that challenges her to strive for the best.

Established in 2006 by Khazanah Nasional Bhd, YK is entrusted to select, support, groom and nurture exceptional individuals capable of leading the best organisations in the country as well as around the world. To date, almost 1,000 prestigious scholarships have been given out.

Through various scholarship programmes by YK, deserving students get the opportunity to study at premier universities in the US, UK, Australia and Malaysia.

Besides financial support, an integral feature of YK scholarship is the leadership and development programme which provides scholars with a holistic education to mould them as not only an individual but more importantly, as a future leader.
