KYS News (September-October)

Kolej Yayasan Saad: for well-rounded high achievers with a global outlook (FMT-8 September 2021)

Kolej Yayasan Saad Melaka (KYS) is a private, residential and coeducational secondary school established in 1995. It offers high-quality Kurikulum Standard Sekolah Menengah (KSSM) national education to students between the ages of 13 and 17, and aims to transform lives in a conducive learning environment where they can discover and unleash their full potential.

With academic excellence being central to KYS education, students are taught to be curious, critical thinkers with a thirst for knowledge. They get to learn from the nation's most skilled educators, many with decades of experience in both public and private institutions.

KYS consistently ranks as a top-performing school in the country, particularly in public examinations every year.

While a KYS student is nurtured to be highly intelligent, his or her other skills are also developed extensively. Extracurricular programmes that emphasise sports prowess, technological acumen, English proficiency, and arts and music appreciation are crafted to produce all-rounded individuals.

More importantly, these activities inculcate noble values and provide rigorous leadership training that are essential to produce competent future leaders and captains of industries with integrity.

Students from age 13 are groomed to have an international outlook. They have the option of taking the Cambridge International General Certificate of Secondary Education, and participating in international-level competitions, art performances, student exchanges, youth forums and summer camps.

The KYS experience equips its students to aim high. Many graduates pursue their education in top world universities such as Oxford and Cambridge, Princeton, the London School of Economics, Imperial College London, Massachusetts Institute of Technology, Wharton School of Pennsylvania, Australian National University, National University of Singapore and University of Malaya.

KYS has seen its alumni pursue their dreams to become impactful figures in their chosen fields such as engineering, medicine, law, finance, performing arts, music, sports and entrepreneurship.

Career wise, many are going through a meteoric rise in the private and public sectors, entrusted with senior leadership roles at a young age. Collectively, KYS alumni are making waves across industries, societies, nations and the world.

With a robust education programme that is meticulously crafted and continuously being innovated, KYS's track record in producing great minds of the future is well-known. Youngsters that get accepted into KYS and follow the programme diligently are sure to have a bright future ahead of them.

Parents are welcome to register their children for admission to Form 1. Details and requirements for online application can be obtained here. For further assistance, contact the following:

Kolej Yayasan Saad juara Cabaran Sains Negara kali ketiga (Kosmo-9 Oktober 2021)

PUTRAJAYA – Kolej Yayasan Saad di Ayer Keroh, Melaka muncul juara pusingan akhir Cabaran Sains Negara (NSC) 2021 Piala Perdana Menteri yang diadakan secara maya hari ini.

Pasukan itu berjaya meraih hadiah wang tunai RM6,000 bagi setiap peserta, komputer riba setiap seorang, sijil penghargaan dan trofi piala pusingan.

Mereka bertiga yang di anggotai Aariz Salimie Ilhan Salimee, Athena Siow dan Gaurakishor Puvanasvaran itu juga berpeluang mengikuti bengkel TheGreatLab Grand Design Challenge.

Program elit itu dianjurkan Pusat Penyelidikan Kolaboratif Kejuruteraan, Sains dan Teknologi (Crest) berpangkalan di Universiti Sains Malaysia, Pulau Pinang yang dilancarkan pada 2012.

Ini kali ketiga kolej berkenaan memenangi NSC selepas julung kali pada 2013 dan kemudian 2017, malah ia menewaskan juara bertahan, SMJK Jit Sin, Pulau Pinang yang hanya sekadar meraih tempat ketiga.

Naib juara pula ialah Sekolah Menengah Kebangsaan Sam Tet, dari Perak manakala keempat diraih Sekolah Menengah Sri KDU, Selangor dan kelima pula MRSM Kota Putra, Terengganu.

Program tahunan nasional sejak 1983 yang dianjurkan Akademi Sains Malaysia (ASM) itu dirasmikan penutupannya oleh Menteri Sains, Teknologi dan Inovasi, Datuk Seri Dr. Adham Baba.

Pertandingan kuiz berprestij itu menyaksikan pada tahun ini sebanyak 706 pasukan sekolah dari seluruh negara menyertainya dari peringkat saringan negeri yang bermula pada 16 Julai lalu. – K! ONLINE

Kolej Yayasan Saad muncul juara Cabaran Sains Negara buat kali ketiga (Utusan Malaysia-9 Oktober 2021)

PUTRAJAYA: Kolej Yayasan Saad dari Ayer Keroh, Melaka muncul juara pusingan akhir Cabaran Sains Negara (NSC) 2021 Piala Perdana Menteri yang diadakan secara maya hari ini.

Pasukan itu berjaya meraih hadiah wang tunai bernilai RM6,000 bagi setiap peserta, komputer riba yang juga untuk setiap seorang, sijil penghargaan dan trofi piala pusingan berkenaan.

Mereka bertiga yang dianggotai Aariz Salimie Ilhan Salimee, Athena Siow dan Gaurakishor Puvanasvaran itu juga berpeluang mengikuti bengkel TheGreatLab Grand Design Challenge.

Program elit itu dianjurkan Pusat Penyelidikan Kolaboratif Kejuruteraan, Sains dan Teknologi (Crest) berpangkalan di Universiti Sains Malaysia, Pulau Pinang yang dilancarkan pada 2012.

Ini kali ketiga ia memenangi NSC selepas julung kali pada 2013 dan kemudian 2017, malah ia menewaskan juara bertahan, SMJK Jit Sin, Pulau Pinang yang hanya sekadar tempat ketiga.

Naib juara pula ialah Sekolah Menengah Kebangsaan Sam Tet, dari Perak manakala keempat diraih Sekolah Menengah Sri KDU, Selangor dan kelima pula MRSM Kota Putra, Terengganu.

Program tahunan nasional sejak 1983 yang dianjurkan Akademi Sains Malaysia (ASM) itu dirasmikan penutupannya oleh Menteri Sains, Teknologi dan Inovasi, Datuk Seri Dr. Adham Baba.

Pertandingan kuiz berprestij itu menyaksikan pada tahun ini sebanyak 706 pasukan sekolah dari seluruh negara menyertainya dari peringkat saringan negeri yang bermula pada 16 Julai lalu.

Beliau menerusi ucapannya berharap akan dapat melibatkan lebih banyak penyertaan kepada sekurang-kurangnya 1,000 pasukan sekolah pada NSC 2022 dan edisi yang seterusnya kelak.

Dalam pada itu Presiden ASM, Prof. Datuk Dr. Asma Ismail dalam ucapannya berkata, program tersebut membolehkan ramai bakat muda negara dibentuk untuk menjadi lebih berdaya saing.

Setiap pasukan juga menerima pengalaman yang dapat memberi inspirasi pelajar lain menyambung pengajian serta kerjaya bidang Sains, Teknologi, Kejuruteraan dan Matematik (STEM).

Para pemenang ujarnya, turut berpotensi mewakili Malaysia dalam aneka pertandingan di luar negara kerana NSC menjadi wadah efektif membuka minda pelajar lebih kreatif dan inovatif.

ASM merupakan organisasi berkanun di bawah kementerian itu dengan mempunyai lebih 800 pakar dalam pelbagai bidang berkaitan STEM menerusi pelbagai aktiviti strategik. -UTUSAN ONLINE

Malaysia needs to increase percentage of students in STEM: Dr Adham (New Straits Times-9 October 2021)

KUALA LUMPUR: The percentage of students in Science, Technology, Engineering and Mathematics (STEM) needs to be increased to 60 per cent to ensure the country has an adequate supply of talent pool in STEM, said Science, Technology and Innovation Minister (MOSTI) Datuk Seri Dr Adham Baba.

Citing the Education Ministry's 2020 Annual Report, he said the percentage of students in STEM was 47.18 per cent with 20.51 per cent involving Pure Science, while the remaining 26.67 per cent was for Technical and Vocational Education and Training (TVET).

"MOSTI is concerned about the percentage of students in STEM because the STEM talent will be the catalyst for the development of a country.

"Today, all countries are racing to produce new science and technology that is sustainable, affordable and safe in line with the vision of the Sustainable Development Goals of the United Nations which is to be achieved by 2030," he said when speaking at the finals of the National Science Challenge (NSC) 2021 for the YAB Prime Minister's Challenge trophy which was held virtually today.

He said the vision could be achieved by culturising Science and Technology, and the government, through various agencies, always committed to helping to culturise and develop a progressive society that supports science and technology.

"STEM subjects need to be further strengthened at all levels to attract students to deepen their knowledge in Science and Technology.

"Teachers, together with the relevant agencies, need to be more creative in creating an attractive learning environment for STEM subjects in schools," he added.

Dr Adham called on institutions of higher learning and schools to collaborate with MOSTI through its agencies to strengthen the country's STEM talent thus creating science and technology-based careers in the future.

Apart from that, he said STEM teaching and learning could be divided into two categories, namely formal learning in schools and informal learning through co-curricular activities or participation in programmes organised by related institutions and organisations such as the National Science Challenge.

He said the involvement of students in such programes would provide the expose for them to explore in the fields of science, technology and innovation and further hone their talents to be more creative and innovative in line with the skills needed in the 21st century.

"I am confident that with this kind of exposure, students will gain more skills and give a positive perception to other students to pay more attention and participate in STEM as a future option," he added.

Meanwhile, Saad Melaka Foundation College was named the winner of the NSC 2021, with the second place won by Sam Tet National Type Secondary School, Perak, and third place went to Jit Sin National Type Secondary School. --BERNAMA
